Subject: RE: draft PM ISA slides for David Dunlap

Well, I'm game for keeping if y'all are.

Sorry I'm going to miss this presentation...

I'm good with the whole set. If it seems like overkill then feel free to drop some, though they may be useful if he wanders into other areas.

I think these look good.

Only question I had is if you want all the appended slides? I remember the issues we had with explaining the pathways and their relation to WOE determinations.

I would expect anything in a slide deck to be fair game for you to expect questions on...

Subject: draft PM ISA slides for David Dunlap

Lou,

Here's a set largely drawn from the IOAA briefing in August, with some streamlining.

Note especially the Next Steps slide (#31)

I just spoke with SAB staff and they have nothing official, but he's heard there is a plan to announce the new CASAC charter panel on Friday Oct 12. That is 60 days before the tentatively planned CASAC meeting on the PM ISA draft.

A continuing rumor/plan is that there will be only a chartered CASAC. Nothing is official yet. That would mean disbanding the current PM panel and not forming an ozone panel.

Let me know if comments. I'll be in my office until vanpool leaves at 2:30

John
